Finanz Informatik Technologie Service (FI-TS) is a cloud service provider serving leading financial services and insurance companies in Germany. These institutions have massive databases and offer services that demand high levels of performance and require secure infrastructure services while decreasing costs. FI-TS turned to Lightbits Labs and Intel to help develop an effective solution. With a wide range of Intel hardware, including 3rd Gen Intel® Xeon® Scalable processors, Intel® Optane™ persistent memory 200 series, and more, FI-TS was able to improve resource utilization, drive better performance, scale data more efficiently, and reduce its TCO.2 Even better, FI-TS was able to offer a highly differentiated service that met its customers' most critical needs.
